

CASE STUDY

COMPANY DETAILS

SpinVox was an innovative company which was one of the first to adapt to the speech to text market. Its services were used by a number of mobile phone operators to provide add-on value.

SERVICES PROVIDED

Online recruitment platform development, hosting and ongoing support.

SPINVOX – ONLINE RECRUITMENT PLATFORM WITH PRE-QUALIFICATION FUNCTION

THE CHALLENGE

During a time of extensive company growth, SpinVox partnered with a technical recruitment company to fill vacancies and our services were used to provide an online recruitment platform to support this. As well as having to integrate with the company's own (graphically-intensive) branding, there was a requirement to develop an innovative pre-qualification candidate filtering system.

OUR SOLUTION

Our solution was based on an ASP.NET coded web application, MySQL database, extensive admin functionality, recruitment agency API and reporting capability. We also provided hosting and ongoing support.
